

Customer Comments

It's important that we receive feedback from all our customers. It's how we better serve you in the future as well as serve others. We ask all our customers to take a few minutes and give us some feedback as to their experience, good and concerning, with our staff and their experience with the organization as a whole. Below is a brief survey on our service, we would appreciate your time to prepare this and let us know how we did.

Please tell us about anything that particularly impressed you, or anything that you would suggest that we improve?

We appreciate the service that was extended during the installation. The technicians were careful about cleaning the areas that were being worked on; keeping the floors clean, removing and replacing shoe coverings, picking up packaging, removing all the old furnace and evaporative cooler parts. They explained details about the new units and answered our questions. The techs were also careful to leave the house the way they found it. The cool clean air feels great!
